  IBM Developer Skills Network
- **Web Development**
  Softlogic Institute
- **Certified Javascript Developer**
  IBM Developer Skills Network
- **Web Designing**
  FITA Acadamy

PROJECTS

- **RecruiterGenie Web Application**
  I developed an Applicant Tracking System (ATS) web application using AngularJS and firebase. The ATS streamlines the recruitment process by managing job postings, tracking applicants, and facilitation communication between recruiters and candidates.
- **Responsive Website**
  Developed a responsive website with interactive forms using HTML, CSS, JavaScript, and Bootstrap, ensuring seamless user experience and accurate form validation. The visually appealing design and user-friendly interface enhanced engagement and promoted professional impact.
- **Shopping Website**
  Enhanced an e-commerce website's look and functionality with an attractive and user-friendly interface created using HTML, CSS, and JavaScript.
- **Weather Application**
  Improved an visually appealing and interactive weather application interface which seamlessly delivers real-time weather data, enhancing user experience.

EXTRA-CURRICULAR ACTIVITIES

- **Trinity College London**
  Theory of Music
- **London Collage of Music**
